# Classic Car Cruise In Lockport's Historic City

*by Ann Goldberg*

Lockport is a "must revisit" on every trip we make back east. A small, charming old city in western New York state, it was home to my mother's family and the location of locks 34 and 35 on the Erie Barge Canal, where the water elevation changes almost 50 feet in less than a city block. On our recent stop we unexpectedly came across the Optimist Club's weekly Monday classic car cruise-in. The field of approximately 70 included some great looking vehicles including a highly customized '57 Nomad and a 1914 Ford Model T Speedster.

# More Cruisin' with the Goldbergs

Found this old Mobil gas station on our way out of Geneva, Ohio.

Driving through Utah we came across this old Essex keeping up with traffic on the hills.

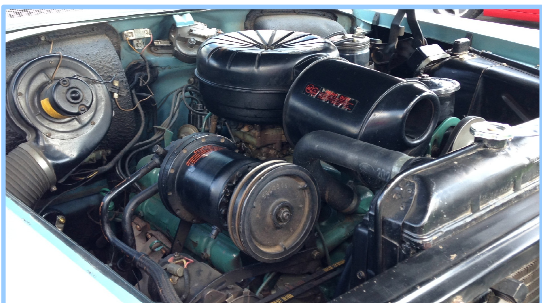

# '55 Buick Special

As we all know from experience, classic cars are great conversation starters. When we saw this good looking '55 Buick in a Wyoming parking lot, we stopped to speak to its owner. 74 year old Judy was more than willing to talk about her car with its factory air conditioning and power steering and invited us take a closer look. Judy, and her 73 year old friend Ann, were on their way from Cheyenne to Logan, Utah where they would join members of a national Buick club for a long-planned run.

## Best Penetrating Oil Is The Cheapest

The Following test is from a Farm Show Magazine

Machinist Workshop magazine recently Tested penetrating oils for break-out Torque on rusted nuts. They "scientifically Rusted" a bunch of nuts, treated them with Various penetrants, and then measured the Torque it took to remove them. Here are the Results:

Nothing	516 pounds
WD 40	238 pounds
PB Blaster	214 pounds
Liquid Wrench	127 pounds
Kano Kroil	106 pounds
ATF-Actone Mix	53 pounds

The ATF-Actone mix of 50-50 automatic transmission Fluid and acetone was a home run. This home made Brew was better than any commercial product.

## on Roast Beef on Weck

Favorite foods from the past can leave very strong memories. A favorite treat growing up was roast beef on weck — delicious thinly sliced roast beef dipped in au jus, topped with some horseradish, and served on a Kaiser roll prepared with coarse salt and caraway (kummelweck) seeds. It wasn't until I left the area that I learned this delicious sandwich is primarily found only in Western New York State where I was raised. On a trip back east recently visiting family I enjoyed another beef on kummelweck. Here's how you can make some yourself.

### Roast Beef on Weck

#### Kummelweck Rolls

- 2 Tablespoons Coarse Salt
- 2 Tablespoons Caraway Seeds
- 1 Cup Water
- 1 Tablespoon Cornstarch
- 1/2 Cup Water, warmed
- 12 Hard or Kaiser Rolls

Mix salt and caraway seeds; store in a clean, tightly covered jar. Boil 1 cup of water; add cornstarch to 1/2 cup warmed water stirring to dissolve. Add this mixture to the 1 cup of boiling water and continue to boil until mixture coats the back of a spoon. Cool. Store in refrigerator.

Heat oven to 350 degrees. Brush water/cornstarch mixture on the top of each roll. Sprinkle with salt/seed mixture. Place on a baking sheet and bake for 4 minutes or until dry.

#### Beef on Weck Ingredients

- 1 Cup Au Jus reserved from roasting beef
- 20 Ounces Thinly Sliced Roast Beef
- 3 Ounces Prepared Horseradish

Heat au jus to a simmer. Dip sliced beef in au jus, place on bottom half of Kaiser roll. Top with a dollop of horseradish. Dip top of roll in au jus prior to serving...and enjoy!
