TRI-FIVE  
REVOLUTION

Volume III Issue 11

July 2011

## Summer Fun in Two O One One

*It's that time of the year again! The sun's shining, ocean's are glistening, and the back yard bar-b-ques are ready for some hot grilling.*

*Tri-Five Revolutionaries started this season out right with our own bar-b-que hosted by Wayne and Linda along with a tri, Tri-5 classic tech day.*

*In July we plan to attend a couple of local shows, but the really fun month will be in August. To start off we want to check out the newest monthly cruise night at In and Out Burger in Poway, then it's our T5R 3rd Anniversary on the 21st. We will be having a Hot August Night (Noon) ourselves to celebrate it at the Rindskopfs' (looking forward to Sam's world famous tri-tip bar-b-queued roast). Everyone bring your classic for an impromptu web update photo shoot. The following weekend is CCSD's Picnic by the Bay another great place to be on a warm summer day, looking forward to that cool ocean breeze. September will be more shows, potlucks, cruises and fun times. Boy it's great to be a T5Revolutionary.*

## Upcoming Events

- 7/4 Independence Day**
- 7/7 Big River Classics Show - Clinton, Ms
- 7/8 Collector Car Appreciation Day - Sema**
- 7/10 Car Show, Simpsons Nursery - Jamul - Rindskopf/Hildebrand**
- 7/10 Long Beach Swapmeet
- 7/10 Cops & Rodders -Liberty Station
- 7-16 King of Clubs Car Show & Drag Races - Barona Dragstrip**
- 7/23 2nd Annual Cruis'n for a Bruis'n Hot Rod Show - San Diego
- 8/4 In and Out Burger Cruise - Scripps Poway Parkway**
- 8/7 Long Beach Swapmeet
- 8/7 22nd Annual Vista Rod Run - Downtown Vista
- 8/7 Main Street America Charity Car Show - Embarcadero Park North
- 8/7-9 Hot August Nights - Lake Tahoe, Nv
- 8/13 Running with the Norsemen Car Show - Valhalla High School
- 8/12-14 Big Bear Lake Fun Run - Big Bear, Ca - Hartwig**
- 8/9-14 Hot August Nights - Reno, Nv
- 8/14 Pomona Swapmeet
- 8/21 T5R 3rd Anniversary**
- 8/21 T5R Party/Potluck/Photo Shoot/Meeting - Rindskopf**
- 8/27 12th Annual Classic Car Show - Spring Valley
- 8-28 CCSD Picnic by the Bay - Embacadero**

# Tri - 5 Tech Time and Bar-B-Que

*by Ava Bishop*

Tri - Five Revolutionaries met at the the Hartwigs' shop for some quality time together. It's been almost a couple of months since we had an official tech day, and a whole month since we've seen each other. We started the day with a fabulous bar-b-que potluck then a real quick meeting to figure out what we would like to do for the next couple of months.

On to tech time, Sam & Donna's nomad has been having a few problems with the air conditioning so some trouble shooting was called for. After much discussion and seeing what was not the problem they had to get out the booklet that showed a wiring schematic. It did help a little even though the print was so small no one could read it. After more trouble shooting it was decided that it had to be the micro switch that is located in the absolutely most inconvenient location, under the dash, behind the glove box tucked in were you almost need to stand on your head and dissociate your wrist to reach. It was decided that Sam would need to order a new switch from Vintage Air first before they could proceed.

On to car two, Rod and Nancy's '57 with another air conditioning problem. This one had a slow freon leak. Bob of course had the perfect tool to check this out, a freon sniffer. After checking all the usual leak spots with no luck they moved on to the not so easy to get to places. A panel in the inner fender panel had to be carefully removed where they found a lose fitting. Hopefully tightening it will do the trick. Time will tell.

Of course we couldn't stop there third time's the charm, or not. Sandy and Lynn's '56 nomad had an oil leak. It was soon diagnosed and a solution was proposed. All in all we had a great day with some pretty talented, terrific people. Thank you to Julisa and Richard, our cooks for the day and to Wayne and Linda for letting us into your secret Tri-5's only club house.

# T5R Upcoming Meetings/Partys/Cruises & Events

**TRI-FIVE**  
REVOLUTION

## T5R Night at In and Out Burger

August 4th - 5pm

12890 Gregg Court

Poway, CA 92064

(the corner of Scripps Poway Parkway & Community Road)

## East County Cruisers

### 9th Annual Car Show

Sunday, July 10th

at Simpson's Nursery

for an event flyer you can go to

for more information

or call Leon (858) 569-0738 or

LeRoy/Marcia (619) 429-5291.

Everyone bring your Classic  
for an impromptu web photo  
shoot to the Rindskopfs on  
August 21st

**HAPPY BIRTHDAY**  
**AMERICA**

Visit our website at: <http://www.tri-fiverevolution.com> for more information, details and links to their sites for flyers.

Go to the day of the event. (if multiple events fall on the same day, click on the # next to the magnifying glass to see the listing of all events)

With all the hoopla (a road rally, mini car show, cruise-in, golf event and opening night gala) and showmanship of the circus coming to town, the Barrett-Jackson Collector Car Auction arrived at the Orange County Fair Grounds Friday, June 24, for three days of auto-based action. Last year's inaugural local event was fun, though somewhat anti-climatic for auto auction junkies numbed by years of televised exposure to the "big one" - the auction extravaganza from Scottsdale every January. Higher quality cars and buyers willing to spend more freely let this year's local auction of over 325 cars more than meet expectations.

Racing cars, screeching brakes, and the acrid smell of hot tires met us as we went through the gate Friday morning. Pure excitement as Ford Mustang performance drivers put their cars through high-speed maneuvers. At the Chevrolet area, an obligatory lap in a street car was all it took to earn a hot lap in the passenger's seat of a new ZR1 Corvette with a professional driver, an E-Ticket ride if there ever was one!

Auction sales started slowly. The first car across the block, a 1974 6 passenger Mercury wagon, featuring orange paint and doors that looked like wood grain adhesive-backed paper, brought only \$1,800 hard fought dollars after much auctioneer effort. Several Friday cars were not California emissions compliant; available only to dealers or out-of-state bidders. And several, seemed to just be used cars. "Collector car" is a loose term open to a great amount of interpretation. First day sales of tri-5's were somewhat lackluster, as were the cars, including \$26,000 for a 1955 150 2-door custom coupe; and \$31,000 for a '56 210 custom hardtop.

Tri-5ers Nancy and Tom (Geiman) joined Harvey and I for Saturday's more spirited auction action featuring 30 non-reserve cars from the collection of David Parker, designer of the waterproof container line known as Pelican Cases. Together these cars brought more than \$2million toward the day's total sales, and included a '56 Bel Air 2 door hardtop sold for \$58,000 and a '57 Bel Air convertible for \$80,000. Bringing even bigger dollars - a '57 Bel Air custom convertible for \$97,000 and an impeccable '55 custom Nomad for \$110,000!

I admittedly get vicarious pleasure watching other people spend their money and it's much more fun when they do it with relatively gay abandon. Thrifty I can handle without any outside assistance. I'm already looking forward to next year's event.

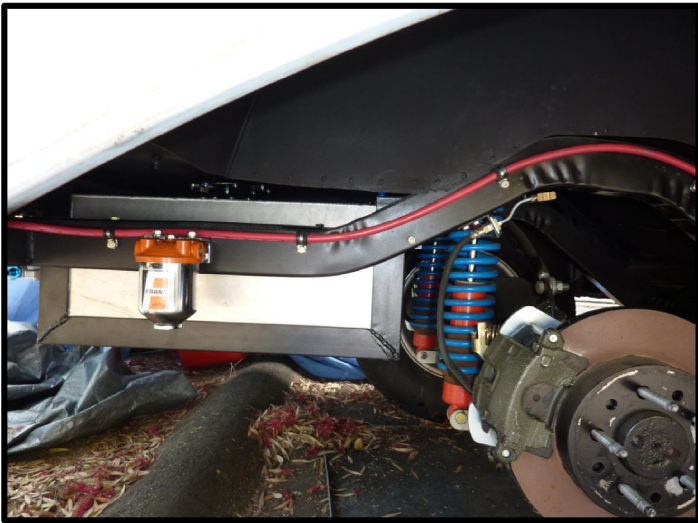

# More from the "PTSNBM"

"Project That Shall Not Be Mentioned"

*by Bob Bishop*

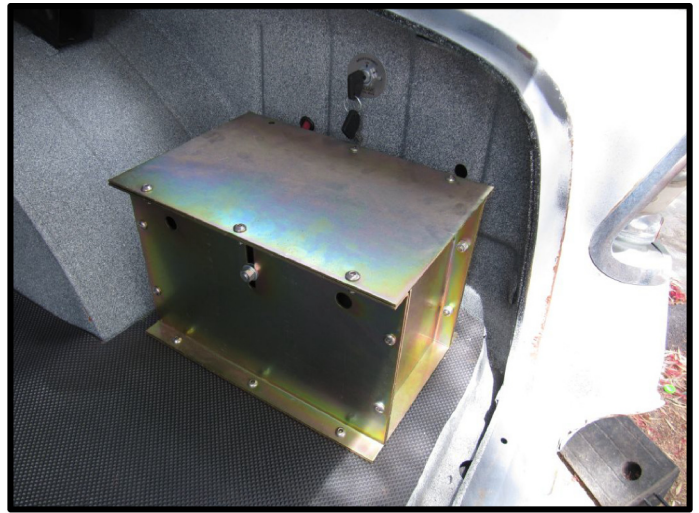

The month of June was very productive working on the "Project". I took a week off from work and with Ava busy with her recitals I was able to get alot done.

The positive battery cable was routed along the frame rail and securely clamped at intervals to the starter.

The fuel line and brake line were routed over the rear axel...

The battery has been permanently mounted and a master disconnect switch installed.

An electric fuel pump was mounted on the rear cross member of the frame near the fuel cell. A canister type fuel filter is mounted on the frame rail.

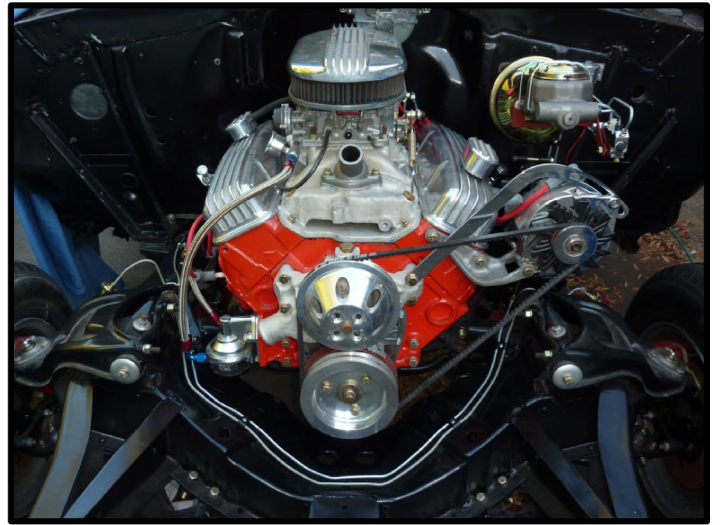

and clamped to the frame to the front.

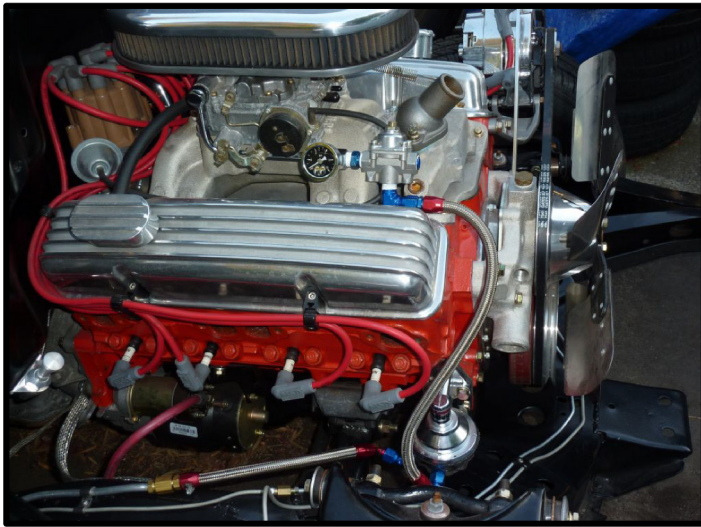

The master cylinder/booster has been bolted to the firewall as well as a Hurst line lock.

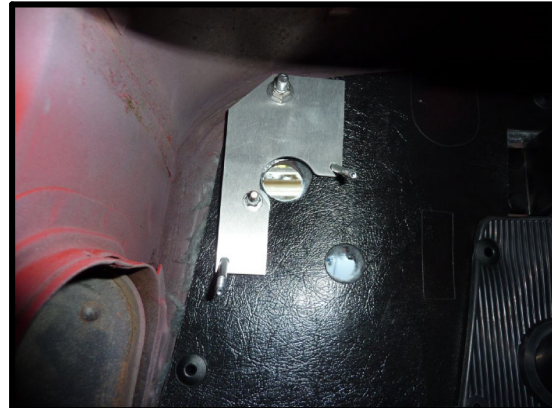

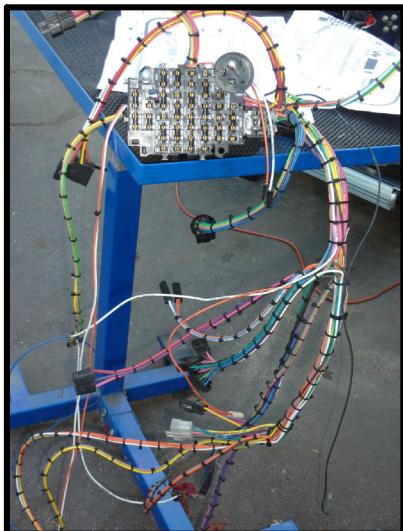

The brake lines have been plumbed and now the car can STOP.

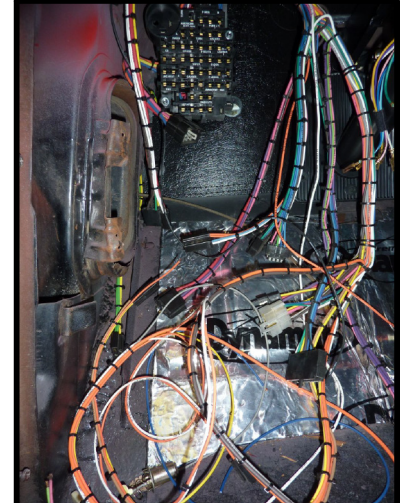

The fuel lines have been connected to the engine mounted fuel pump and to the carburetor through a pressure regulator.

An extruded aluminum dual pass transmission cooler has been mounted between the front frame horns and will be tucked behind the front bumper.

The fuse block portion of the wiring harness received my signature zip tie treatment. The mounting bracket was bolted in place on the firewall underneath the dash and the fuse block intalled.

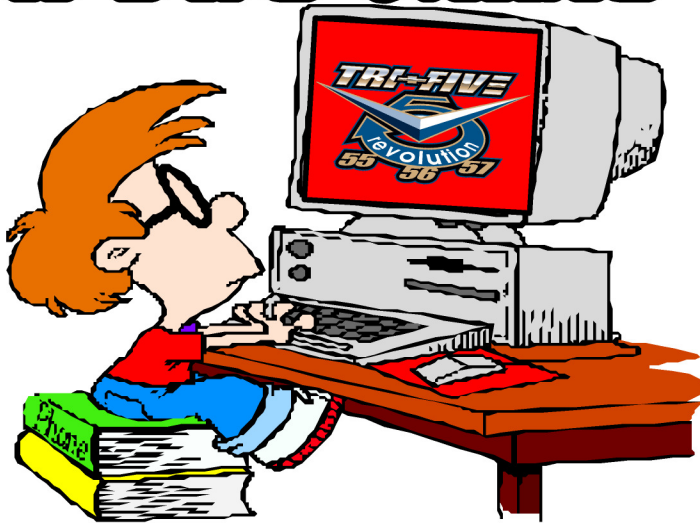

# Claudia's Corner

**WOW!!! WHAT A LITTLE GEM THE CUCUMBER IS.  
I WILL LOOK AT IT DIFFERENTLY NOW.**

1. Cucumbers contain most of the vitamins you need every day. Just one cucumber contains Vitamin B1, Vitamin B2, Vitamin B3, Vitamin B5, Vitamin B6, Folic Acid, Vitamin C, Calcium, Iron, Magnesium, Phosphorus, Potassium and Zinc. bb
2. Feeling tired in the afternoon? Put down the caffeinated soda and pick up a Cucumber. Cucumbers are a good source of B Vitamins and Carbohydrates that can provide that quick pick-me-up that can last for hours.
3. Tired of your bathroom mirror fogging up after a shower? Try rubbing a cucumber slice along the mirror. It will eliminate the fog and provide a soothing, spa-like fragrance.
4. Are grubs and slugs ruining your planting beds? Place a few slices in a small pie tin and your garden will be free of pests all season long. The chemicals in the cucumber react with the aluminum to give off a scent undetectable to humans but drive garden pests crazy and make them flee the area.
5. Looking for a fast and easy way to remove cellulite before going out or to the pool? Try rubbing a slice or two of cucumbers along your problem area for a few minutes, the phytochemicals in the cucumber cause the collagen in your skin to tighten, firming up the outer layer and reducing the visibility of cellulite. Works great on wrinkle stool!! (Hmmm we'll see about that)
6. Want to avoid a hangover or terrible headache? Eat a few cucumber slices before going to bed and wake up refreshed and headache free. Cucumbers contain enough sugar, B vitamins and electrolytes to replenish essential nutrients the body lost, keeping everything in equilibrium, avoiding both a hangover and headache!!
7. Looking to fight off that afternoon or evening snacking binge? Cucumbers have been used for centuries and often used by European trappers, traders and explorers for quick meals to thwart off starvation.
8. Have an important meeting or job interview and you realize that you don't have enough time to polish your shoes? Rub a freshly cut cucumber over the shoe, its chemicals will provide a quick and durable shine that not only looks great but also repels water.
9. Out of WD 40 and need to fix a squeaky hinge? Take a cucumber slice and rub it along the problematic hinge, and voila, the squeak is gone!
10. Stressed out and don't have time for massage, facial or visit to the spa? Cut up an entire cucumber and place it in a pot of boiling water. The chemicals and nutrients from the cucumber will react with the boiling water and be released in the steam, creating a soothing, relaxing aroma that has been shown to reduce stress.
11. Just finish a business lunch and realize you don't have gum or mints? Take a slice of cucumber and press it to the roof of your mouth with your tongue for 30 seconds to eliminate bad breath. The phytochemicals will kill the bacteria in your mouth responsible for causing bad breath.
12. Looking for a 'green' way to clean your faucets, sinks or stainless steel? Take a slice of cucumber and rub it on the surface you want to clean. Not only will it remove years of tarnish and bring back the shine, but it won't leave streaks and won't harm your fingers or fingernails while you clean.
13. Using a pen and made a mistake? Take the outside of the cucumber and slowly use it to erase the pen writing. Also works great on crayons and markers that the kids have used to decorate the walls!!
