## Southern California Classic Chevys

STORY

After Goldie hosted a garage sleep-over for T5R's beautiful mint green Nomad the night before, the Harvey's and Goldberg's made the trek north to Chatsworth on Sunday, May 3, for the Southern California Classic Chevys Club's show at Rancho San Antonio Boys Town of the West. The drive up the 5 Freeway into the San Fernando Valley is a nice run for the cars.

BY

Open to vehicles from 1900 - 2009, this year's show, the 27th for the Club, fielded the most cars ever for the event - 250 plus 12 host club cars. The show has a lot to offer -- on-the-grass parking; regular, children's, "super" and engine raffles; a baked goods auction; a variety of vendors, including the ever popular Kettle Corn; decent food including breakfast items, the usual hot dogs, plus chicken and ribs prepared and sold by the boys themselves; a free photo of your car, and peer judging with awards to the top 50 vehicles.

PHOTO

The day offered one unexpected adrenaline rush when a welcome easy breeze on a warm afternoon became a wind event powerful enough to turn Mike's umbrella inside-out, land Harvey's unoccupied chair into Pat's lap, send his shirt into the air, remove her visor, and propel an easy-up cartwheeling between two rows of cars! Luckily through it all, only the umbrella was damaged.

# MIKE'S MOM-SUM

Just a couple of thoughts I would like to share:

First congratulations to Sam and Donna on moving into their new home. It's nice to see them back in Ramona and finally being HOME.

My Mom has moved into another apartment in Carlsbad, which means my garage now has her "stuff" in it and our cars are parked outside again. Sounds like the Footes all over again. At least she is doing better now and is back to her old self. Let me know if you need more stuff for your garage, I know she would be happy to share.

We are building a shed tomorrow to store the "stuff" and some other "stuff" from the "Burb" so maybe by next week we can start on the restoration of the First Series.

Keep this in the back of your mind and maybe we can discuss the possibility of doing

Something like a concert or dance with a Do -Wop Theme. I'm sorry I just can't help myself.

Be Safe,  
*Mike*

We were all deeply saddened by the loss of the Rindskopfs' grandson Blaise.

It is always difficult to figure out what you can do to lend your support.

Well Sam and Donna have made it easy for us. Below is a special message from them:

It has been 3 months today since our grandson Blaise Samuel Pascal was born. We started a Memorial for him and want to raise awareness of Stillbirths. I know you all supported Sam and I and our family through these tough times and I just want you to know how much we appreciate you for this. If you can find it in your hearts to support this cause by going to [www.rememberblaise.com](http://www.rememberblaise.com) it would mean the world for our daughter Tasha, her husband Misha and us to help bring more awareness to this sadness.

# Tri-5 Thefts Continue to be a Hot Discussion Topic

Submitted by Harvey & Ann Goldberg

As the number of Southern California classic car thefts rises, ideas how to safeguard our Tri-5's continue to be a popular topic of conversation whenever enthusiasts get together. Some new information was shared by Darryl of D&P Classic Chevys at the recently completed 2009 Gambler Classic in Laughlin.

According to Darryl, who has written several articles on classic car security for various automotive publications, the car thieves often work in concert with service drivers: cab drivers, low truck drivers and code enforcement workers, whose jobs often take them into residential neighborhoods. A classic car parked outside, even for a short time, or visible through an open garage door, can easily be spotted and noted by these individuals who we so commonly see near our homes that they are practically invisible to us.

For those with pockets deep enough to match their level of concern about security for their classic, the ultimate protection is a combination of an alarm system featuring a satellite tracking device and telephone notification feature teamed with an alarmed security fence surrounding where the vehicle is stored.

A more modest solution, in addition to the battery ground cable disconnect most all of us have installed, is to also disconnect your automatic garage door opener whenever you're going to be away from home overnight.

# Comic Relief for Claudias Corner

## A DC airport ticket agent offers some examples of 'why' our country is in trouble!

1. I had a New Hampshire Congresswoman ask for an aisle seat so that her hair wouldn't get messed up by being near the window. (On an airplane!)

2. I got a call from a candidate's staffer, who wanted to go to Capetown. I started to explain the length of the flight and the passport information, and then she interrupted me with, "I'm not trying to make you look stupid, but Capetown is in Massachusetts." Without trying to make her look stupid, I calmly explained, "Cape Cod is in Massachusetts, Capetown is in Africa" Her response – "click."

3. A senior Vermont Congressman called, furious about a Florida package we did. I asked what was wrong with the vacation in Orlando. He said he was expecting an ocean-view room. I tried to explain that's not possible, since Orlando is in the middle of the state. He replied, "Don't lie to me, I looked on the map and Florida is a very thin state!" (OMG)

4. I got a call from a lawmaker's wife who asked, "Is it possible to see England from Canada?" I said, "No." She said, "But they look so close on the map." (OMG, again!)

5. An aide for a cabinet member once called and asked if he could rent a car in Dallas. When I pulled up the reservation, I noticed he had only a 1-hour layover in Dallas. When I asked him why he wanted to rent a car, he said, "I heard Dallas was a big airport, and we will need a car to drive between gates to save time." (your tax dollars at work!!!)

6. An Illinois Congresswoman called last week. She needed to know how it was possible that her flight from Detroit left at 8:30 a.m., and got to Chicago at 8:33 a.m. I explained that Michigan was an hour Ahead of Illinois, but she couldn't understand the concept of time zones. Finally, I told her the plane went fast, and she bought that.

7. A New York lawmaker called and asked, "Do airlines put your physical description on your bag so they know whose luggage belongs to whom?" I said, "No, why do you ask?" She replied, "Well, when I checked in with the airline, they put a tag on my luggage that said (FAT), and I'm overweight. I think that's very rude!" After putting her on hold for a minute, while I looked into it.. (I was dying laughing). I came back and explained the city code for Fresno, CA is (FAT - Fresno Air Terminal), and the airline was just putting a destination tag on her luggage.

8. A Senator's aide called to inquire about a trip package to Hawaii. After going over all the cost info, she asked, "Would it be cheaper to fly to California, and then take the train to Hawaii?"

9. I just got off the phone with a freshman Congressman who asked, "How do I know which plane to get on?" I asked him what exactly he meant, to which he replied, "I was told my flight number is 823, but none of these planes have numbers on them."

10. A lady Senator called and said, "I need to fly to Pepsi-Cola, Florida, Do I have to get on one of those little computer planes?" I asked if she meant fly to Pensacola, FL on a commuter plane. She said, "Yeah, whatever, smarty!"

11. A senior Senator called and had a question about the documents he needed in order to fly to China. After a lengthy discussion about passports, I reminded him that he needed a visa. "Oh, no I don't, I've been to China many times and never had to have one of those." I double-checked and sure enough, his stay required a visa. When I told him this he said, "Look, I've been to China four times and every time they have accepted my American Express!"

12. A New Mexico Congress woman called to make reservations, "I want to go from Chicago to Rhino, New York." I was at a loss for words. Finally, I said, "Are you sure that's the name of the town?" "Yes, what flights do you have?" replied the lady. After some searching, I came back with, "I'm sorry, ma'am, I've looked up every airport code in the country and can't find a rhino anywhere." The lady retorted, "Oh, don't be silly! Everyone knows where it is, check your map!" So I scoured a map of the state of New York and finally offered, "You don't mean Buffalo, do you?" The reply? "Whatever! I knew it was a big animal."

YES, THEY WALK AMONG US, ARE IN POLITICS, AND THEY CONTINUE TO BREED.
